Human Resources Director  
Tata Consultancy Services  
2550 W Union Hills Dr # 300,  
Phoenix, AZ 85027

Dear Hiring Manager,

I am writing to express my interest in the position of Full Stack Developer. I believe I may be a valuable member to your team because I have experience making modern websites from using the PERN stack. My experience includes building websites with React.js and Javascript ES6, including styling with HTML5 & CSS3 and building postgresSQL databases. I am also studying the angular framework and mongoDB.

I have honed my graphic design skills in Adobe Creative Suite from my time in the creative fields. I have a logical mind which is good for solving complex problems and coding challenges. I'm a good team player, and my team's projects have earned awards.

I have attached a copy of my resume, which includes links to my past work. I look forward to hearing from you about this opportunity.

Sincerely,  
Matthew Shields
